

MENU KNOWLEDGE BASE ENGINE

n8n AI Webhook Injection Format: This document serves as the absolute source of truth mapping structured menu objects for ingestion by n8n workflow nodes, vector stores, or LLM system context windows to drive the **Ask AI** restaurant chat modal.

Data Schema

`MealItem { id, name, description, price, category, image?, isAvailable }`

Total Core Items

9 Managed Entities

Target Channels

n8n Workflow Webhooks / OpenAI Chat Assistants API / Vector RAG Stores

1. Structured Menu Entities

The following dataset is structured to guarantee exact semantic query mappings when an autonomous AI agent or chatbot processes user inquiries regarding descriptions, ingredients, pricing, and availability constraints.
